SUMMARY

Creative and detail-oriented Frontend Developer specializing in building pixel-perfect, accessible web applications. Experienced with modern frameworks like React, Next.js, and TypeScript. Passionate about performance, clean architecture, and intuitive UI/UX.

EXPERIENCE

Freelance, Frontend Developer

Jan 2024 - Present

Developed a full-stack, responsive educational platform using Next.js
Implemented serverless architecture for scalability and performance
Designed intuitive UI with a strong focus on accessibility and maintainability

IKNOWLY, Frontend Developer

Nov 2024 - Present

Rebuilt the UI using Figma designs and integrated new features
Worked with Zustand, Formik, React Query, NextUI, and Tailwind CSS
Collaborated closely with backend team to streamline API integration

SeenaPay, Frontend Developer

Sep 2024 - Nov 2024

Built a modern dashboard using Next.js and Tailwind CSS
Enhanced performance with Framer Motion, SWR, and Axios
Focused on accessibility and responsive UI

One Solution, Frontend Developer

May 2024 - Sep 2024

Developed responsive interfaces using React and Next.js
Improved performance and codebase maintainability
Delivered scalable solutions aligned with client expectations

EDUCATION

Mansoura University

BSc in Sociology • 2017 - 2022

CILAS

Diploma in Liberal Arts • 2021 - 2022

CERTIFICATIONS

Next.js 14 & React - The Complete Guide

Udemy • Issued May 2024

UX Design Foundations

Google • Issued Jan 2024

Ultimate React Course

Udemy • Issued Nov 2023

Python Data Structures

University of Michigan • Issued Apr 2023

Responsive Web Design

freeCodeCamp • Issued Aug 2021

JavaScript Algorithms and Data Structures

freeCodeCamp • Issued Sep 2021

SKILLS

HTML • CSS • JavaScript • TypeScript • React • Next.js • Redux • Zustand • React Query • SWR
• Axios • Shadcn/UI • Material UI • Tailwind • Drizzle ORM • Zod • React Hook Form • Formik •
Lucia Auth • Next-intl • Jira • Linear • Git • Figma • Photoshop

FEATURED PROJECT

Cairo Institute of Liberal Arts and Sciences - CILAS | IN PROGRESS | [Github](#) | [Demo](#)

Tech Stack: TypeScript • Next.js • React • Zustand • Lucia Auth • Neon Serverless Postgres • Drizzle ORM • Tailwind CSS •
Shadcn/UI • Framer Motion • React Hook Form • Zod • Tiptap • Cloudinary

Summary: An education and content management platform built for the Cairo Institute of Liberal Arts and Sciences (CILAS), designed to streamline administrative tasks and cultivate a digital space for collaborative learning.

Current Features:

Authentication System	<i>Implemented secure login and access control using modern auth practices.</i>
Course Management	<i>Developed CRUD operations (Create, Read, Update, Delete) for courses with draft and publish workflows.</i>
Fellow Assignment	<i>Enabled assignment of fellow to specific courses for better organisation and giving them more permissions to manage their course space.</i>
WYSIWYG editor	<i>Built a WYSIWYG editor for courses and posts</i>
Course Filtering	<i>Added dynamic filters for course availability to aid administrators.</i>
Student Assignment	<i>Enabled structured student-course assignments, laying the foundation for integrating payment workflows, role-based contributor permissions, and automated online certificate issuance to courses they are enrolled in.</i>
Post Management	<i>Developed CRUD operations (Create, Read, Update, Delete) for posts with draft and publish workflows.</i>
Contributor System	<i>Enabled post tagging, contributor roles, and category assignments.</i>
Responsive Dashboard	<i>Designed and developed a fully responsive UI for desktop, tablet, and mobile devices.</i>
